

The Many Moving Parts of a Site Benefit from Portable, Self-Powered Security Solutions

Drive Progress and Efficiency with Rapidly Deployable Security

Be There, Even When You Can't

V5 Portable Security Solutions for Construction, take the busywork out of business opportunities.

- Save money and time by remotely monitoring progress
- Gain visibility over expensive infrastructure
- Save valuable man-hours with a rapidly deployable system

Monitor Site 24/7

Stream live video or on-demand and gain real-time insight and access to your project with our self-powered live-streamed HD video solution that can be deployed in under 30 minutes per unit.

Protect Equipment

Valuable moving parts and equipment demand security that can keep up. At less than 25 pounds per device, you get true flexibility when requirements change. Move it as often as needed.

Improve Efficiencies

Improve team collaboration and accountability while building a culture of collaboration. Free yourself from the limitations of the power grid and take back your business.

Customizable Solutions to Fit Your Needs

V5 Portable Security Unit – Analytics (V5 PSU-Analytics)

Rapidly deploy pre-configured, self-contained security units with advanced analytics. Detect people and vehicles in sensitive zones to safeguard your project infrastructure.

V5 Portable Security Unit – Streaming (V5 PSU-Streaming)

Want easy-to-use insight for your site surveillance needs? V5 PSU-Streaming gives you 24/7 live video feed from anywhere.

V5 Camera Adaptive Platform (V5 CAP)

Turn virtually any existing surveillance camera into a self-powered, compact powerhouse to give you insight in construction areas where access to power and communications are limited.

V5 Portable PTZ Unit (V5 PSU-PTZ)

Pan, tilt and zoom functions allow you to remotely control your viewing area. Great for wide site coverage and details when zooming in.

V5 License Plate Reader (V5 LPR)

Your construction zone is heavily trafficked with teams, vendors and visitors traversing the site at all hours of the day. Control access with our portable V5 LPR solution that allows you to identify and record license plates on still or moving cars. Maintain your site integrity without having to trench for power and connectivity.
