

Broken Couches, Cracked TVs, Busted Dining Tables on your Street?

ILLEGAL DUMPING: WHEN TRASH MISSES THE BIN

Be There, Even When You Can't

Prevent illegal dumping to keep your communities safe through reduction of service calls and reallocation of funding. With V5 Portable Security Solutions, keep the trash off your streets and in the landfill.

- Gain visibility over vulnerable dumping hotspots via 24/7 surveillance
- Protect your community from hazardous waste conditions with rapid mobile alerts
- Save resources, including cleanup manpower and money, by remotely monitoring susceptible areas

“ *Environmental consciousness, a need to promote the health of local residents and the necessity of using local resources efficiently present a real challenge for many cities.* **”**

Jeff Smith, VP of Global Security and Retired Police Captain

Challenge	Solution	Results
A Silicon Valley city had to monitor over one hundred illegal dumping hotspots, fielding up to a hundred calls daily. Even after the creation of a dedicated taskforce, preventing illegal dumping was costly.	<p>V5 Portable Security Unit-Streaming (V5 PSU) for areas without power.</p> <p>V5 Portable License Plate Reader (V5 PSU-LPR) to capture offenders' license plates in outdoor areas without power.</p>	In less than a year, the city has seen no service requests in areas where units are deployed. The units act as a deterrent and provide forensic evidence, with several citations being issued based on the LPR data.

Customizable Solutions to Fit Your Needs

Monitor Hotspots 24/7	Save Resources
Stream live video or on-demand and gain real-time access to your streets with a self-powered HD video solution that can be deployed in under 30 minutes per unit. This is forensic evidence at your disposal.	By preventing or immediately addressing city funding, your officers and city personnel can reallocate city funding to other priorities. Redeploy these 25 pound devices as crime moves, giving you flexibility and scalability in cities where illegal dumping sites can number in the hundreds.
Protect Communities	Technology that Pays for Itself
If we are what we eat, then communities are what they contain. Hazardous waste can poison communities through air and water exposure and the consequences are often deadly and expensive. Keep your communities vibrant and safe by keeping streets clean.	Recoup the costs of dumping prevention with real-time alerts, allowing officers to catch perpetrators in the act. Instead of costly cleanup, stop offenders and bolster citations with indisputable video proof.

V5 Portable Security Unit – Analytics (V5 PSU-Analytics)

Rapidly deploy pre-configured, self-contained security units with advanced analytics. Detect people and vehicles in sensitive zones to safeguard your infrastructure.

V5 Portable Security Unit – Streaming (V5 PSU-Streaming)

Want easy-to-use insight for your site surveillance needs? V5 PSU-Streaming gives you 24/7 live video feed from anywhere within your zone.

V5 Portable License Plate Reader (V5 PSU-LPR)

Don't be limited to parking garages and low-speed zones. Capture license plate data in the outdoors, in areas where access to infrastructure is limited. With the V5 PSU-LPR, gain superior plate recognition at high speed and in low light conditions.
