

Crime Doesn't Sleep, It Moves

WHY EVERY POLICE DEPARTMENT NEEDS PORTABLE, SELF-POWERED SECURITY

What an intelligent Force Multiplier does for you

Whether it is gunshot detection or theft prevention, you need a solution that moves when crime moves – inherently adaptable and intelligent. You need a force multiplier so that you can do what you do best – protecting and defending those who count on you. And now, you can quickly deploy that second pair of eyes and ears in the hardest-to-police areas – in under 30 minutes per unit.

The V5 Portable Security Unit with Acoustic Gunshot Sensor lets you:

- Gain visibility over vulnerable areas and outdoor blind spots via 24/7 downloadable, streamable surveillance
- Better utilize police resources with flexible technology that can be redeployed for monitoring, saving time and manpower
- Protect your community from both violent and nonviolent crime with rapid mobile alerts

“Portability saves money and also gives you the flexibility to move things around. In the world of ‘hotspot policing,’ you put all your resources where the most problems are. This acts as a force multiplier, saving on personnel, while still providing the eyes and abilities to follow-up on events after they’ve occurred.”

James Randol,
Retired Police Captain

Challenge	Solution	Results
A Silicon Valley city was terrorized by a serial shooter who fired at moving vehicles over a period of four months.	V5 Acoustic Gunshot Sensor (V5 PSU-GSL), a portable solution to capture and localize sources of gunfire, sending validated real-time alerts to officers’ phones via an app.	Within a month, officers were able to move the units 12 times, allowing them to ultimately home in and catch the serial shooter

Customizable Solutions to Fit Your Needs

24/7 Proactive Hotspot Policing

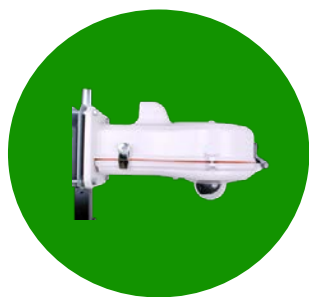

Stream live video or on-demand and gain real-time access to your streets with a self-powered HD video solution that can be deployed in under 30 minutes per unit. This is forensic evidence at your disposal.

Save Personnel and Resources

With a flexible second pair of eyes and ears, your officers and city personnel can reallocate funding to other law enforcement priorities. Redeploy these 25-pound devices as crime moves, giving you flexibility and scalability.

Protect Communities

You make countless, split-second risk assessments every day to be there for your community. Crime doesn't sleep. Now, neither do you.

V5 Portable Security Unit – Analytics (V5 PSU-Analytics)

Rapidly deploy pre-configured, self-contained security units with advanced analytics. Detect people and vehicles in sensitive zones to safeguard your project infrastructure.

V5 Portable Security Unit – Streaming (V5 PSU-Streaming)

Want easy-to-use insight for your site surveillance needs? V5 PSU-Streaming gives you 24/7 live video feed from anywhere.

V5 License Plate Reader (V5 LPR)

V5 LPR solution that allows you to identify and record license plates on still or moving cars. Maintain your site integrity without having to trench for power and connectivity.

V5 Portable PTZ Unit (V5 PSU-PTZ)

Pan, tilt and zoom functions allow you to remotely control your viewing area. Great for wide site coverage and details when zooming in.
