## Rugged Mobile Computing Solutions

Certified 8(a), SDB, DBE, SBE, MBE, WBE & CUCP

### Public Safety Solutions

#### Award Winning Advanced Authentication & Password Management Solutions

- Healthcare Solution: 2FA healthcare solution is designed to satisfy the ever-growing and ever-changing regulatory environment and application infrastructure in use within healthcare.
- Public Safety Solution: 2FA Public Safety solution is designed to provide the maximum level of flexibility while significantly enhancing security.
- Enterprise Solutions: 2FA enterprise solution is scalable to address the requirements of small, medium, and large enterprises.

#### Panasonic Arbitrator® BWC

The Arbitrator® BWC protects your officers with HD-quality video evidence capture they can wear. Engineered with upgraded features based on real officers' feedback, the Arbitrator BWC provides 130 degrees of evidence capture with GPS metadata, pre- and post-event recording and WiFi for easy offloading. When paired with the Arbitrator 360° HD in-car digital video recording system and the Unified Evidence Management System (UEMS) software suite, it represents a comprehensive video evidence capture solution for your agency

#### Panasonic Arbitrator In-car-video System

From in-vehicle video and body-worn evidence capture, to surveillance footage and other evidentiary digital media – everything can be securely stored and easily managed with this single-platform software. The UEMS helps you minimize and optimize storage costs and archive data to on-premise disk, cloud storage or other data archive systems. It also offers centralized configuration management for the Arbitrator 360° HD in-car digital video recording system, and the Arbitrator® BWC body-worn camera system, along with real-time streaming support from officers in the field. Capture all the evidence and stay organized with this easy-to-use software solution.

#### Cradlepoint IBR1100 Cloud-Managed Networking for Vehicles

The Cradlepoint COR IBR1100 Series is a compact, ruggedized 3G/4G/LTE networking solution designed for mission-critical connectivity in the most challenging environments. Ideal for in-vehicle networks including police cars, ambulances, and mass transit, this cloud-managed solution provides organizations the ability to scale deployments quickly and manage their vehicle networks easily in real-time. With an extensive list of safety and hardening certifications, the COR IBR1100 is engineered to protect against extreme temperatures, humidity, shocks, vibrations, dust, water splash, reverse polarity, and transient voltage.

#### Panasonic Arbitrator® 360°HD

The Arbitrator 360°™ HD rugged in-car digital video recording system leads the industry in image quality and precision for unmatched critical mobile video evidence capture. Its full HD 1080p front camera delivers amazing clarity and ultra-accurate color representation, and the system supports up to five cameras of simultaneous recording for a full 360-degree view to maximize situational awareness.
